

PATHAN AKBAR

Unity Developer | Multiplayer Game Developer | Photon Fusion, FishNet, Socket.IO | 4 Years Experience

+91 9099304250 | pathanakbar143786@gmail.com | Surat, Gujarat, India | [Portfolio: akbar.games.boldway.in](#)

PROFESSIONAL SUMMARY

Unity Developer with 4 years of experience building mobile, multiplayer, and 3D games using Unity and C#. Strong hands-on experience with Photon PUN, Photon Fusion, FishNet, Socket.IO, PlayFab, gameplay systems, UI implementation, profiling, debugging, build optimization, and real-time multiplayer architecture. Worked on MMORPG, MOBA, casino, casual, and card game projects with experience in team coordination, client requirements, QA support, and end-to-end feature delivery.

CORE TECHNICAL SKILLS

Game Development: Unity, C#, 2D/3D Gameplay, Mobile Games, UI Systems, Animation Integration, Game Optimization

Multiplayer & Networking: Photon PUN, Photon Fusion, FishNet, Socket.IO, Matchmaking, Real-time Synchronization, Room/Session Flow

Backend & Data: PlayFab, REST APIs, JSON, Player Data Handling, Inventory/Equipment Data, Build Management

Tools & Workflow: Git, Addressables, Debugging, Profiling, QA Coordination, Task Planning, Client Communication

PROFESSIONAL EXPERIENCE

Unity Developer | Xogo Studios | 01/2024 - Present

Surat, Gujarat

- Lead Unity development for a large-scale Metin2-style MMORPG, coordinating daily tasks, feature ownership, QA support, and weekly delivery flow.
- Developed MMORPG modules including skills, equipment, inventory, UI flows, player progression, and multiplayer-related gameplay features.
- Built and supported multiplayer game architecture using Unity, C#, Photon/Fusion workflows, PlayFab data handling, and real-time gameplay logic.
- Developed Legends of Yuga MOBA MVP systems including minion/turret logic, synced damage feedback, timers, and multiplayer-ready mechanics.
- Improved mobile performance through profiling, debugging, asset handling, build size reduction practices, and optimization of heavy gameplay scenes.

Unity Developer | Artoon Solutions Private Limited | 03/2023 - 12/2023

Surat, Gujarat

- Developed multiplayer and casual game features for Carrom, 8 Ball Pool, and Yatzy using Unity and C#.
- Implemented gameplay systems, real-time synchronization, matchmaking flows, UI screens, and client-specific feature updates.
- Integrated socket/network-based communication and supported debugging, bug fixing, and mobile performance improvements.

Unity Developer | Freelance | 12/2021 - 02/2023

Remote / Surat, Gujarat

- Built casual and hyper-casual games including Ball Blast-style gameplay, Call Break, and 21 Blitz for client requirements.
- Handled full game development flow from gameplay implementation and UI integration to testing, optimization, and build delivery.

SELECTED PROJECTS

Metin2 MMORPG - Unity, C#, Photon/Fusion workflows, PlayFab: Worked on skills, equipment, inventory, UI flows, player progression, optimization, and team-based delivery.

Legends of Yuga MOBA - Unity, C#, FishNet/Multiplayer concepts, Blaze AI: Developed minions, turret behavior, XP/damage systems, gameplay timer, UI feedback, and multiplayer-ready gameplay flow.

Metabet Casino Games - Unity, C#, Socket.IO: Supported real-time multiplayer casino flows for Roulette, Blackjack, and Poker-style gameplay with socket communication.

Multiplayer Casual Games - Unity, C#, Photon PUN, Socket.IO: Worked on Carrom, 8 Ball Pool, Yatzy, Ball Blast, Call Break, and 21 Blitz with gameplay and optimization focus.

KEY ACHIEVEMENTS

- Led end-to-end delivery of a large-scale MMORPG project while managing development coordination and technical execution.
- Built multiplayer systems across MMORPG, MOBA, casino, card, and casual game genres.
- Reduced build size and improved mobile performance through asset cleanup, profiling, debugging, and optimization practices.

EDUCATION

Bachelor of Computer Applications (BCA) Coursework | Veer Narmad South Gujarat University, Surat | 2021 - 2024
